1. The following is an examiner's statement of reasons for allowance: Claims 57-77 are allowed because the prior art fail to teach or fairly suggest a laser structure as claimed in claim 1.

Thornton ('408) discloses a laser device in Figure 8 with at least one cylindrical cavity 126 that exposes a portion of current blocking layer to a preselected agent to physically change the current blocking layer to be electrically insulative; however, Thornton fails to provide an unchanged region of said current blocking layer being surrounded by said first changed region.
